

Office Product-12Feb-2008-

The site looks a lot better! It is looking really good now! A few things I noticed that need to be added quickly are the images for the products page, this still hasn't been updated. Can you please add the ASAP so I can show progress to the client?

Midas Comment-Mostly Images are provided in the most of the pages in the front end as required.

TAB – Do You Have a Product That Needs Marketing?

The mission of Clearly Innovative Home & Office Products is to identify better products that result in better solutions. If you believe you have developed a better product, contact us. If it truly is a “better mouse trap”, we will partner with you to develop your product’s full market potential on our website.

Midas Comment-From where to give this tab please suggest?
